PLEASE BRING THIS CATALOGUE TO THE SALE

FOREWORD

The Wyevalley dispersal sale catalogue is surely one of the most diverse and interesting published for a dairy sale for quite some time. It contains over 25 different families from the very best of the Holstein, British Freisian, Blended Red & White and Scandinavian Red breeds and features animals with contract potential, show potential and great breed improvement qualities as well as plenty of sound productive commercial animals. The focus now and previously is breeding bulls with high genomic health trait figures. The herd has produced the both the current No.1 PLI available British Friesian genomic sire and the highest Uk bred daughter proven SRB sire.

The superb, high component, Fay family from Laurelhill is the most numerous with 27 members catalogued and the Barbs descended from Hanoverhill Logic Berry **20***, **(Ex-90)** has some exceptional animals for sale – watch out for the VG87 2yr old by Sidekick, lot 27. The herd is catalogued in alphabetical order and every page has an individual of interesting breeding.

The sale contains 140 cows & calved heifers, 32 served heifers due from October onwards, over 140 subsequent youngstock together with 14 breeding bulls , 95 embryos and numerous lots of semen. The catalogue contains 14 EX, 43 VG & 36GP cows.

Of special note are the sections in the sale for both the British Friesians and the Scandinavian Reds. Over the last few years Eryl has gathered top foundation stock from both breeds and then bred and developed these to become one of the top sources for their respective genetics with numerous bulls sold to various AI companies and semen sold to several countries around the world. Eryl paid a UK breed record price for the red cow 690 Orreja EX93-4E who has gone on to establish the leading SRB family in the UK. Some of the animals catalogued are amongst the highest genomic tested of their breeds and are sure to generate huge contract interest for their new owners. With an average PLI of £338, the SRB section of the milking herd ranks as the current No.1 on the Shorthorn/ Blended Red base.

Eryl Done is one of the most gifted and innovative breeders of his generation and embarked on his cattle breeding career in 1985, aged 15 with the purchase of a Cardsland Flo to start the Wyevalley herd having previously selected the matings for his parents Donbank herd from the age of 11! After a spell with the great Hanoverhill herd he started ET Genetics in 1989 and after Cambridge and qualifying as a vet he farmed with his mother in Monmouthshire, Herefordshire & now Northumberland. Over this span of time they held 7 sales under the ET genetics banner. The cattle, in the main, have done very well for their new owners and started many good families and produced bulls for herd use and AI as well as several All-Britain nominated descendants. Interestingly it was not always the big priced animals that achieved great things but others sold for less money have given great results. Since 2013 Eryl has concentrated on families that have excelled under UK conditions such as the Fays, Bilsthorpe Sues, Galastar Olas(Holstein) , Orreja & Frida (SRB) together with Daphnes & Paulines(British Friesian).

The sale now brings that era to an end and it is sad that Eryl's parents, both of whom died recently will not be there to see the final sale. Eryl has been chosen to head up a project for an Asian Veterinary School in the far East and leaves this autumn.

HERD MANAGEMENT

The Wyevalley herd has resided for the last few years on a Northumberland farm without the luxury of modern facilities. The herd has been predominantly grazed with a simple grass silage based Winter diet. It should be noted that there is huge scope for yield improvement in more improved conditions.

The herd is cubicle housed and milked twice daily. In recent weeks the herd have been milked through a rotary parlour. Current yields are as follows;

Holstein 8646kg 4.66fat 3.29protein
SRB/Blended Red 8046kg 4.66fat 3.44protein
British Friesian 8038kg 4.27fat 3.29protein

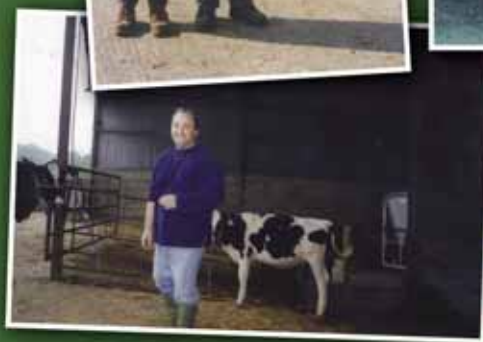

The herd resides in a 4 yr TB testing area with the last clear test carried out December 8th 2020.

The herd is BVD free (tag tested negative) with no clinical evidence of Lepto or IBR. Herd was last vaccinated with IBR marker in December 2018.

The herd has shown no signs of clinical Johnes disease in recent years. The herd was Johnes monitored with low risk until recording temporarily lapsed in November 2020.

All bulls sold into AI since 2018 have passed their extensive health tests without any problems.

Selective dry cow therapy is practised with the majority of cows only having Orbeseal with only cows >200 SCC receiving Cepravin Dry cow.

Dear Fellow Breeders,

Welcome to the 7th and final Wyevalley Sale: The **“Final Chapter”** of the herd's story.

I am proud of what we have achieved over the years, but never more so than to have achieved the ambition of breeding the No.1 genomic PLI bull in the August 2021 proof run. However, if you had told me a decade ago that this would be top of the British Friesian breed I probably wouldn't have believed you! In fact no less than 2 out of the current top 10 PLI Friesian genomic sires carry the Wyevalley prefix, and it should have been 3 out of 10 if another son of Chad Verity hadn't injured his back at stud.

With dairy farmers seeking a robust, trouble free cow the addition of Scandinavian Reds to the herd has been a focal point in recent years, with breeding bulls selling from the herd all over the country and into A.I. I have worked closely with UK Sires and semen from our bulls has been exported internationally. Currently the No.1 UK bred widespread daughter proven SRB bull (on the Shorthorn base) is Wyevalley Tango P. His brother at Cogent, Wyevalley Fortune, is one of the highest type merit genomic SRB bulls and was a former No.1 PLI genomic sire on the Ayrshire base.

The mainstay of the herd remains the Holsteins and it gives me immense pleasure that two of the stars of this section, Wyevalley Sidekick Barb VG87-2y and Wyevalley Upgrade Barb, are descendants of the calf that I picked out aged 18 whilst working as a herdsman at Hanoverhill in my gap year. I first had to persuade Peter Heffering to sell her to me, and then Lloyd Wicks of Grasshill to house her for me for a year in a CHAH leucosis free herd, but fortunately Hanoverhill Logic Berry EX-20* repaid my faith by becoming the highest Star Brood cow in the Barb family and then selling for the top price of 11,500 gns in our 1994 Sale. There is a huge diversity of genetics within just the Holstein section with polled, red and white, show type, high index and outcross lines. Top outcross cows such as some members of the Fay and Sue family, with no Mogul, Oman, Shottle, Goldwyn or Planet in their pedigrees are almost impossible to find elsewhere in the breed in today's genomic age.

What a rollercoaster my farming career has been, with some incredible successes and disappointing letdowns! Buying a single cow at age 14, and starting ET Genetics at age 19, I was able to buy my Father's share of the home farm when my parents divorced in the 1990's and then build up to a peak of milking 295 cows near Hereford. Disaster then struck with the vendor of the farm we purchased breaching a milk quota contract and leaving us facing superlevy on projected milk output of over 2 million litres. A long legal battle ensued at the end of which we were awarded very substantial damages, which unfortunately we were only able to recover a small fraction of.

We believed moving the herd to TB4 status Northumberland in January 2018 with the promise of a longterm tenancy would secure the future of the herd and cattle breeding business. Sadly that was not to be and the last 3 years have been among the most difficult of my farming career with the extraordinary relationship with the landlord making it untenable to continue farming at Northfield. I am very grateful to Simon Moon for agreeing to take care of the herd in the run up to the sale.

Even more devastating was my Mother's diagnosis of terminal kidney cancer shortly after moving here. My Mother was a huge part of the success of the herd with her passion for the cows and attention to detail. When my Mother's condition deteriorated in November 2020, not only did I lose the main calf rearer but also became her primary carer during the Covid lockdown. Dealing with this at the same time as the difficulties with the tenancy were escalating was one of the toughest seven months I have experienced.

Sadly just 3 days before the service to celebrate my Mother's life, my Father also suddenly passed away after a massive brain haemorrhage, having also lost his new wife to cancer in the Spring.

My sincerest thanks go to Jen Nelson who ensured everything kept going in this difficult period, despite having only been employed as a part-time relief milker, and to Leanne Hedges, who came back to help out in spite of her own cancer diagnosis. Niamh Aspin also helped out when she could fit it around her lambing jobs.

Although it will be an incredibly sad day for me, I am very proud of the cattle in the catalogue and what we have achieved not just in one breed, but across three breeds. I am sure they will go on to perform exceptionally well for their purchasers, freed from some of the limitations experienced at Northfield.

It just remains for me to thank everyone who has supported the herd and business over the last 36 years, and to wish everyone the best of luck with your purchases!

Best Wishes,

Eryl

COVID-19 PRECAUTIONS

We are currently operating under measures to combat the spread of Covid-19 whilst continuing to supply the national food chain.

We would ask that all prospective buyers attending the sale register their contact details upon arrival in case of future tracing purposes.

Please maintain social distancing measures at all times in line with current government advice & guidelines.

Hand sanitiser stations will be provided upon entry to the sale and various points around the sale area including the payment clerk desks.

We thank you for your patience & vigilance.

ENTRY TO SALE PREMISES

All visitors please note that entry to the sale site is at your own risk. No liability whatsoever can be accepted by the vendors or the Auctioneers.

ANIMAL WELFARE

All purchasers please be aware of the implementation of EU Welfare in transport Regulation (EC) No 1/2005 - when hauling livestock.

BREEDING GUARANTEE

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the sale) will be guaranteed by the vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale. Should any animal prove not to be in calf, any claim under this guarantee must be made to the auctioneer in writing within 7 weeks of the date of sale. Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates in the catalogue of sale.

UDDER WARRANTY

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of the sale shall carry a guarantee that she is sound in udder and teats at the time of sale, but no claim under such guarantee can be entertained unless made to the Auctioneers within an hour of the close of the last lot except in the case of Herd Dispersal Sales or Breeders' Home Sales when the guarantee period is extended to two hours after the close of the sale of the last lot. If the Auctioneers are satisfied that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.

NOTE - At Herd Dispersal or Home Breeders' Sales the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the Purchaser in accordance with the warranty.

PAYMENT

Payment must be made in full to the Auctioneers on the sale day. No lots may be removed from the sale premises without an auctioneers pass confirming payment.

Prospective purchasers who have not traded with the auctioneers before are requested to make themselves known prior to commencement of the sale and confirm arrangements of payment.

AGENCY BIDDING

Any customer at the sale bidding as an Agent on behalf of a third party is deemed by the auctioneers to be the purchaser and subject to the terms of the conditions of sale, unless written authority from the person(s) on whose behalf they are bidding is presented to the auctioneers before the sale commences

Telephone Bids: Please note that any potential buyer wishing to bid over the telephone must register with the auctioneers before the sale.

Terms: All purchasers please note that accounts must be settled at the close of the sale.

DATA PROTECTION

Introduction

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

Our Commitment

Norton & Brooksbank Ltd are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

Norton & Brooksbank Ltd are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised in this statement and include the development and implementation of new data protection roles, policies, procedures, controls and measures to ensure maximum and ongoing compliance.

The Sue's at the British Bilsthorpe

Splendid Holstein quality in a row. At the farm of Philip Rhodes in the British county of Lincolnshire, situated on the British east coast. We will immediately begin with this quartet. On the far left is Bilsthorpe Lyric Sue 2 VG-86, daughter of the Talent son Corringham Lyric. With a second record of 3.6 278d 10,453 4.34% 3.27%. Daughter of the superb brood cow Bilsthorpe Capri Sue, from the Italian Juror son Riglio Juror Capri. You will encounter Capri

Sue's name three more times.

Second from left is Bilsthorpe Freeman Sue EX-91, the now 8-year-old Freeman daughter of another powerful brood cow: Bilsthorpe Sue 23. This Sue 23 is good for EX-95 and 8 lactations, the highest of them being 8.3 14,721 4.51% 3.27%. She's a daughter of the Estanco Thor son Plushanski Thor Cutter. And dam of – besides the here pictured Freeman Sue – Capri Sue and Shottle daughter Sue 2 VG-87.

Grazing third from the left is Bilsthorpe Alliance Sue, daughter of the German bull Alliance

(who as an Allen son comes from the Italian breeding operation ME.Dal and originates from the Laurie Sholk family). This now 4-year-old Alliance Sue (it is her pedigree that is shown here) scored VG-88 and descends from Bilsthorpe Shottle Sue – the cow that you see on the right.

So on the far right is the Excellent Shottle daughter Sue, now 7 years old, good for EX-90 and 4 lactations, with the latest: 5.7 305d 12,584 4.07% 3.02%. This Shottle Sue is a daughter of the previously mentioned Capri Sue.

Laurelhill Fay: Exciting Outcross Family From Northern Ireland

In certain regions of the world, there are pockets of livestock breeders adept at producing outstanding animals. Whether it is the spirit of competition, or an innate ability to make the best use of available genetics – or a combination of the two – they have a disproportionate degree of success. One such strong-hold is Northern Ireland, renowned for top-quality Holstein herds. A shining example of the Holstein success is the Fay family.

■ DOUG SAVAGE

Top seller of the Laurelhill sale, *Laurelhill Maestro Fay*. Out of an EX-91 Ford, she is dam of the genomic sire *Laurelhill Regent*.

Laurelhill Classic: The high-ranking British sire is the icon that leads us to the Fay family. At 214 PLI, he is the Nr.4 on the list. The Genus-ABS bull is an O-Man son born and bred in the 90-cow Laurelhill herd owned by Brian Mawhinney of County Antrim, near Belfast. The dam of Classic is an EX-91 Laudan, backed by an EX-94 daughter of Picston Shaker, the Dominator brother to Shottle. Next in the pedigree is an EX-92 Crichton Principal, the Celsius son from the Crichton Pamela family. A further 6 younger Fay bulls are awaiting proofs at Genus and Cogent, evidence of the high esteem that British sire analysts have for the Fay family.

EXTREME FERTILITY

The story of the Fays commenced around 1990, when Mawhinney purchased a Tab heifer that was out of a Chief Mark from the now-dispersed Drumkee herd. A bull stud had imported Mark embryos out of a VG-88 Elevation backed by an EX Astronaut from the Holteix herd in the US, and had sold the resulting heifer call to Drumkee. The family continues in the

US where a now distant branch includes the cow Pappys Dundee Bessie EX-94. Through the 90s, the Tab produced a 7-lactation total of 89,510 kg, classified EX-91, and left 6 daughters: 4 EX and 2 VG. Her EX daughters were sired by Eagle, Inspiration, Gibbon and Lord Lily, while she had VG daughters by Fatal and Jed. 'The family has been absolutely consistent in the way they transmit,' comments Brian. 'They have impressive will to milk, and extreme fertility. They go back-in calf easily, and have multiplied to the point that we sold 63 Fay's through our sale, even though we've

Laurelhill Laudan Fay, dam of an EX-91 *Roumare* and a VG-88 *Stal Joc*, and also the proven bull *Laurelhill Classic*.

used very little embryo transfer.' April saw the Laurelhill milking herd dispersal sale held at the farm. 'We are taking a year off milking,' explains Brian. 'There are 52 Fays among the younger heifers we kept back, so the Fays will continue to be a dominant force in our herd.'

SALE TOPPER

One of the cows that sold through the sale was Laudan Fay EX-91, the dam of Classic, described as 'perhaps the most complete cow of all the Fays.' Laudan Fay was purchased by Cyril and Martin Millar, of County Londonderry. Topping the sale at £8,500 was the 2nd calver Maestro Fay VG-88, who has a PLI of 227 and sold to Eryl Done of Wyevalley Dairy Genetics, of Hereford. She is the dam of the young Britt Prince son Laurelhill Regent at Cogent, and is from the second prominent family line, being out of an EX-91 Ford that was from the VG Fatal daughter of the foundation cow. In fact, Eryl Done purchased 8 Fays, including 3 sisters to the Maestro, as well as the EX-94 Shaker dam of the Laudan. 'From the moment these cows arrived, they were immediately among the top producers in our 130-cow herd,' comments Eryl. 'The Stal Joc sister to Classic gave 60 kg the day after she stepped off the lorry! They are not over tall, but are aggressive, natural milking cows that stand their own in the herd. The whole family scores well for health traits, and has very good components. My only regret is I didn't buy more. They must be the best outcross family anywhere. We plan to flush them extensively.' The second-high seller of the sale was another daughter of the Ford, Rosell Fay EX-91, who was purchased by Wesley Gordon of Brookside Farm, County Down for £5,600. Outcross, excellent health traits, high components and pleasing type: The Fays make an impressive package, now with a proven bull Classic to reinforce their credentials. ●

This is *Laurelhill Shaker Fay EX-94*, grand-dam of Classic.

CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer's clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
8. Breeding Guarantees and Udder Warranty, see page before, for other Sale Rules see H.U.K.I Auction Rules which are available at the Auctioneers desk for inspection. If there shall be any conflict between these conditions of Sale the former shall prevail.

NORTON & BROOKSBANK
Park House Farm, Raskelf, North Yorkshire YO61 3LS
